Guardian Toy Barrier

ABSTRACT

A toy barrier of the New Jersey traffic barrier style to provide children with a product for any number of applications. Analogous of existing highway traffic barrier with the exception of the size and the intended use. The toy may be filled with water, sand or any type of substance through a fill hole in the top of the barrier. The fill hole shall also act as the drain plug. Product uses would include, but would not be limited to, sand boxes, toy racetracks, playpen areas of containment, etc. Number of applications determined upon child's imagination.
